

K&B Surgical Center LLC Notifies Patients of Data Security Incident

K and B Surgical Center, LLC (“K&B”) has become aware of a data security incident that may have resulted in an unauthorized access to some of our patients’ sensitive personal information. While we are unaware of any misuse of personal information at this time, K&B sincerely regrets any inconvenience or concern that this matter may cause, and remains dedicated to ensuring the privacy and security of all information in our control.

What Happened?

On March 30, 2021, K&B discovered that an unauthorized user had gained access to its network. Upon discovery of this incident, K&B promptly engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the incident. On April 27, 2021, the forensic investigation determined that an unauthorized user accessed K&B’s systems from March 24, 2021 to March 30, 2021. Then K&B performed data mining on the affected servers to identify the specific individuals and the types of information that may have been compromised, and on July 27, 2021, K&B finalized the list of individuals to notify. At this time, K&B has no reason to believe any personal information has been misused by third parties.

What Information Was Involved?

The types of information involved varied by individual. However, the information potentially exposed during the unauthorized access may have included an individual’s name, date of birth, address, phone number, Social Security Number, driver’s license number, passport number, and protected health information, including, but not limited to, medical diagnosis, treatment and prescription information, provider name, patient ID, Medicare/Medicaid number, lab results, health insurance information, and treatment cost information.

What We Are Doing

K&B is committed to ensuring the privacy and security of all personal information in our care. Since the discovery of the incident, K&B have taken and will continue to take steps to mitigate the risk of future issues. Specifically, K&B engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the incident. K&B also changed passwords for all user accounts, VPN connections, and emails, installed new anti-virus security systems and threat monitoring programs on all computers, implemented periodic network security audits, re-trained employees on security, and updated the security rule risk analysis. Furthermore, for some of the patients, K&B has arranged for its patients to enroll in complimentary credit monitoring services through Equifax.

What You Can Do

K&B encourages all patients to remain vigilant against incidents of identity theft and fraud, to review account statements, and to monitor credit reports for suspicious or unauthorized activity. Additionally, security experts suggest that individuals contact his/her financial institution and all major credit bureaus to inform them of such a breach and take the recommended steps to protect his/her interests, including the possible placement of a fraud alert on the credit file. For more information, please see the *Additional Important Information* below.

Additional Important Information

For residents of all states:

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.

Monitoring: You should always remain vigilant and monitor your accounts for suspicious or unusual activity.

Security Freeze: You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
